Building for  
the future

---

## Exhibition

### Your Invitation

At the end of June 2010 Uttlesford District Council unanimously approved our application to build a new village hall and sports facilities on the village Playing Fields, financed by some new houses. This was achieved because of the strong backing of Manuden residents.

Since then the Project Steering Committee has been working with our preferred developer, Pelham Structures, listening to the comments of residents living near the Playing Fields and taking advice from the District Council in order to prepare the Final Planning Application. The Final Application will describe in detail the design and layout of the buildings and all that goes with a project of this complexity; once approved, construction work can commence.

**We are now almost ready to submit the Final Application.**

Before we do so, in order that you can see what is proposed in terms of the layout and design of the community facilities, the houses and the associated infrastructure, **an exhibition will be held on**

**Friday, 6<sup>th</sup> January between 2pm and 8pm**

**and Saturday, 7<sup>th</sup> January between 10am and 1pm**

**in the Village Hall.**

Representatives from the Steering Committee and Pelham Structures will be on hand to answer questions and to note any comments you may have.

We do hope you will be able to come along and see how very exciting the plans now look.

*To all Residents of Manuden, from the MC&SC Steering Group  
December 2011.*
